MANAGER'S REPORT

Well we have just about transitioned everybody to the NDIS system with only four employees to go.

Our new bus is going well and everyone is reminded to keep the vehicle clean and report any damage to your supervisor.

The footy tipping competition is coming to a close with two staff members leading at the moment but a couple of employees are closing in on the leaders so it could be a tight finish.

Antigonish Poem by William Hughes Mearns

Yesterday, upon the stair,
I met a man who wasn't there
He wasn't there again today
I wish, I wish he'd go away...

When I came home last night at three
The man was waiting there for me
But when I looked around the hall
I couldn't see him there at all!
Go away, go away, don't you come back any more!
Go away, go away, and please don't slam the door... (slam!)

Last night I saw upon the stair
A little man who wasn't there
He wasn't there again today
Oh, how I wish he'd go away...

The Lost Dr. Seuss Poem
I Love My Job!

I love my job. I love the pay!
I love it more and more each day.
I love my boss, he is the best!
I love his boss and all the rest.

I love my office and its location. I hate to have to go on vacation.
I love my furniture, drab and grey, and piles of paper that grow each day!
I think my job is really swell, there's nothing else I love so well.
I love to work among my peers, I love their leers and jeers and sneers.
I love my computer and its software; I hug it often though it won't care.
I love each program and every file, I'd love them more if they worked a while.

I'm happy to be here. I am. I am.
I'm the happiest slave of the Firm, I am.
I love this work. I love these chores.
I love the meetings with deadly bores.

I love my job - I'll say it again - I even love those friendly men.
Those friendly men who've come today, in clean white coats to take me away!!!!

GUNNEDAH WORKSHOP DAY PROGRAMS

Written by Jayde Bain

Hello to all,

We have been having a great time at the workshop in our Day Program doing cooking and craft programs once a week.

This month in craft we have been working on our father's day gifts. We have also been making personalised cards and are in the process of making stained glass affect cookie jars.

In cooking we have made 2 different kinds of slices which were a caramel slice and a jelly slice. Both were enjoyed by all for a treat for afternoon tea. We also made pizza scrolls on another occasion this month, which were also enjoyed by all.

We have also been providing assistance with banking and budgeting with some clients as well as some personal shopping. During our shopping, clients are encouraged to put their purchases through themselves and have become quite confident doing so.

Everything is going really well and clients are enjoying their increased independence.

Serve with pasta or rice

(I like to mix my pasta or pasta through the sauce before serving).

Ag Quip History

Can you recall what 1973 was like? The Queen opened the Opera House, the voting age went down to 18, Gala Supreme won the Melbourne Cup and Helen Reddy topped the charts with Delta Dawn. In January 1973 wool hit \$20 a kilo but by the end of the year, inflation was running at 13pc.

Politics these days is going through a very turbulent period but it wasn't much different 40 years ago. In 1973 people on the land were very apprehensive. On 5th December 1972, Gough Whitlam had swept into power, heralding a three year period of rapid change and political and economic turbulence before he was dismissed by Sir John Kerr on 11th November 1975.

But on Tuesday 21st in the third week of August 1973, while Canberra was in an uproar over the Federal Budget, in Gunnedah, NSW, something very positive was taking place. It was the start of a new event, which over the next four decades would have a huge impact of primary industry in Australia. It was AgQuip.

AgQuip forever changed the way rural and agricultural products and services are sold to people on the land in Australia. It was the first truly commercial sales promotion run by marketing people, bringing and selling products and services to country people, says Max Ellis, AgQuip's founder and Chief Executive from 1973 to 1984, the man who came up with the distinctive name AgQuip.

AgQuip also spelt the end of the major city shows like the Royal Easter Show as venues for agricultural machinery. By taking the machinery to where it was being used, AgQuip catered for the specialised needs of rural producers and kept fairy floss to a minimum. For many companies it became a rare chance to talk with and get a response from the people, the products and services were created for, and many a designer has gone back to the drawing board after long discussions with the savvy consumers at AgQuip.

Another thing that set AgQuip aside to this day from other field days was the absence of any entry or parking fees. Chief Executive Max Ellis conceived AgQuip as a gigantic outdoor rural and agricultural department store and as he frequently said ... "whoever heard of Myers charging customers to come into the store". Placing the financial responsibilities for under-writing the event on the sellers was a major part in building AgQuip into one of the world's major rural and agricultural field days, which it remains to this day.

Initiated by Radio Stations 2TM and 2MO, the event was designed as a strictly commercial activity, run by promotional and marketing professionals with the backing of the substantial New England Radio Network. Having launched the Australasian Country Music Awards in January 1973, Radio 2TM was taking commercial radio from a passive role as a medium for carrying other people's advertising, into an active role in creating and running business events of their own. In 1973 that was a media innovation in itself. It was picked up in many areas notably in Toowoomba where DDQ-10 TV started Farm Fest field days after Manager Laurie Burrows visited the second AgQuip.

The first AgQuip was staged at the Gunnedah Riverside Racecourse from noon on Tuesday 21st to Saturday 25th August, 1973, over four and a half long days, a schedule that was quickly revised for the following year when the current Tuesday, Wednesday and Thursday pattern was established. This schedule firmly flagged the event as a commercial activity tailored to the requirements of companies and people on the land, not weekend urban tyre kickers.

It was officially opened by Deputy Leader of the Opposition, Leader of the Country Party and farmer Doug Anthony, who courageously agreed to be flown from the airport into the site in a tiny, experimental 2 seater, McCulloch J2 Autogyro, which was being tested in Australia by De Havilland. Only later was it learnt that it has no license to carry passengers! No OHS in those days!!

The opening was to have been broadcast live over 2TM and 2MO but industrial problems at Telecom made that difficult. It was also the day of the new government's first budget, which was certainly not welcomed by all!

As the dates for AgQuip had been carefully selected after a detailed survey of weather statistics, which showed it was historically the driest time of year you can imagine the organisers surprise when it actually rained during those first days, a phenomenon that didn't occur again during AgQuip for at least the next 15 years.

With some 63 exhibitors set up in the middle of the racecourse, the event attracted an estimated 23,000 people and created traffic jams that amazed and gratified everyone, though the local police were caught unawares when they suddenly found vehicles queuing up in the main street of Gunnedah some 2 kms from the site. There were over ten acres of display and even room for tractor and implement demonstrations, which were very popular.
